

Export Compliance Statement

“TCI fully complies with all U.S. export control regulations, including the International Traffic in Arms Regulations (ITAR) and the Export Administration Regulations (EAR).”

“As a Term of Sale, TCI requires its customers to use reasonable efforts to cooperate with, and assist, TCI in the correct identification and classification of items provided by the customer which may be subject to U.S. export control regulations. If the customer cannot, or will not, make commonly reasonable efforts to assist TCI in the correct identification or classification of items relative to U.S. export control regulations, then the customer hereby indemnifies and holds harmless TCI from any resulting violation and/or penalties which may arise from the inaccurate classification of items and any resulting exports of such items which occurs.”

“The term “item” (as described above) includes product or hardware, technical data, software, or technology which is subject to any U.S. export regulation. “Item” does not just refer to the physical product itself.”

“TCI will not export restricted items without documented proof of a license or agreement from the appropriate governmental authority, and will follow all terms, conditions and provisos on such license or agreement as a condition of exporting and engaging in business with its customers.”

“TCI shall not be liable in any way to customers or third parties for delays caused by licensing issues to the extent such licensing issues arise out of customer’s failure to cooperate with and assist TCI in its efforts to accurately classify items provided by the customer or manufactured to the customer’s requirements, designs and/or specifications.”
